■■■ SUPPLY CHAIN SOLUTIONS

Supply Chain Solutions Ltd. is far more than a traditional logistics service provider. Our team of industry professionals provides clients with analysis and solutions in all areas of the supply chain process. SCS has the knowledge and infrastructure you need to conduct business to and from China.

Typical services include Sourcing, Manufacturing, Purchase Order Management, Quality Assurance, Warehousing, Inventory Management, Value-Added Services, Customs Processing and Clearance, and intra China transportation with connecting International Freight Options.

Our international management teams are experienced in providing targeted or full service programs to large and small logistics providers, manufacturers, retailers, e-commerce organizations and wholesalers who can employ SCS' expertise to reduce their costs and increase productivity.

SCS has offices located around the world, allowing us to serve you locally while providing service internationally. The SCS Corporate Headquarters is located in Hong Kong, while other offices are positioned in China, the United States, Canada, Latin America and the Middle-East.

■■■ SUPPLY CHAIN SERVICES

Many companies that import from or export to China are looking for more than traditional logistics services. At SCS we have the infrastructure to create customized supply chain strategies, as well as the China market resources and expertise to handle each project individually. Our programs are designed to help you achieve your goals in Purchasing, Production, Quality Control, Inventory Financing, Local Vendor and Sourcing Management, Warehousing, Distribution and Fulfillment.

Client partners can choose from individual services or a "package program" encompassing a range of services to meet specific requirements.

WE BELIEVE IN STAYING ON TOP OF THINGS.

Purchase Order Management:

SCS maintains close contact with your suppliers to supervise and manage each P.O., providing complete visibility through the entire process. We monitor and implement:

- Materials Planning
- Production Planning
- In-Run & Finished Product QC Protocols
- Finishing Schedules
- Regular Visits To Suppliers
- Event Log Reports
- Exceptions Reports

Quality Control Services (QC):

Our teams of QC inspectors visit factories and perform hands-on inspections in accordance with industry and client specifications. All Quality Control is documented and test samples are retained to protect your interests and those of your valued customers.

Vendor Management Program:

Daily or weekly notifications will be sent to you regarding production and shipments from your vendors' locations.

Production Management Program:

SCS Production Engineers are available to monitor factories and suppliers to ensure that production is on time and in compliance with P.O. specifications.

Sourcing/Overseas Procurement Program:

SCS supports sourcing of merchandise based on samples, blue prints, technical drawings, etc. Our team of sourcing specialists, supported by our engineering staff, is experienced in a wide range of products and industries. SCS engages the right talents required to support your specific product or category requirements.

Warehousing & Distribution Services

SCS provides both cost and flexibility advantages in processing, maintaining and servicing warehouse inventory in China, whether importing from or exporting to the country. SCS maintains experienced management and state of the art warehousing throughout China, including temperature controlled and cold storage facilities in Hong Kong and Southern China. Space is also available in Export Bonded Warehouses, Free Trade Zone (FTZ) and Bonded Logistics Park (BLP) facilities.

Warehouse Services Include:

- Bar Code Scanning & Reporting
- Packaging or Repackaging
- Kitting or Mixing of Assortments
- Inspection
- Customized QC Protocols
- Re-labeling, Re-marking
- Pick & Pack (pallet, case, unit levels)
- Palletization & Shrink Wrapping

Consolidation

SCS' consolidation program allows consignees to consolidate goods sourced from multiple suppliers into centralized hubs.

Consolidation Services include:

- Pick and Packing against Customer Purchase Order
- Reduction of Freight Costs, Limiting LTL Shipments
- Storage, Handling and Value Added Services
- Receiving and Put-Away of Inventory
- Container Cube Optimization
- Track and Trace Reporting

Vendor Managed Inventory (VMI)

SCS offers customized VMI services to a variety of industries and can tailor a program to suit your individual requirements.

VMI Services include:

- Custom Clearance into Bonded Facilities
- Inventory Management
- Warehouse Management
- Track and Trace via Internet
- Electronic Data Interchange

Temperature and Humidity Controlled Storage Facility:

Temperature Range: **14°C - 18°C / 57.2°F - 64.4°F**

Humidity Range: **68 % RH - 74 % RH**

Distribution Centre for Imports From and Exports To China

Companies shipping goods from China have the option to move their Distribution Centre to a Chinese based operation, creating savings in both fixed and variable costs. SCS' experience and infrastructure can greatly simplify importing from China. SCS handles the entire customs and trade process from all countries of origin, allowing you more time to focus on your core competencies.

We provide the following services:

- Bonded Warehouse Management
- Import Export Trading Service
- Food Label Registration
- Inventory Management
- Value Added Tax Refund Facilitation
- Tax Payment Facilitation
- Customized Reporting
- Inventory Financing
- Customs Clearance
- Local Delivery with GPS Equipped Trucking Fleet
- Commercial Invoicing
- Collection of Receivables
- Payment settlement

■ ■ ■ FREIGHT SERVICES

Supply Chain Solutions' Freight Department provides trucking, ocean, and airfreight services for domestic and overseas clients. Our computer software monitors all aspects of the logistics process with Electronic Data Interchange capabilities, shipment visibility and web based real time tracking. We provide partial freight management programs for clients who may have their own direct freight arrangements with ocean or airfreight service providers. SCS' freight department can support all or parts of our clients' freight programs, including services as requested. When needed, we stay in a neutral position for our clients in order to manage contracted/nominated carriers.

We offer frequent Less-Than-Container Load (LCL), Full Container Load (FCL), and Air Freight programs from China and Hong Kong ports, as well as cross border and intra China transportation services. We carefully monitor and execute the fulfillment of each P.O. at the supply base so that you can concentrate on other fundamental business activities.

■ ■ ■ SPECIAL SERVICES

Our iSupplyChain System (iSCS)

The Supply Chain Solutions iSCS program is a total solutions resource starting from the time you place a purchase order online, until it is received at your company's doorstep. At SCS, our expertise in Warehousing Management, Supply Chain Management, Logistics and eCommerce allows you to focus on sales and marketing, all the while lowering your business costs and boosting productivity.

The iSupplyChain System can be integrated with most existing internet sales programs. The SCS warehouse management system provides customized reports relating to:

- Customized Purchase Order Management
- Electronic Data Interchange Receiving and Shipping Data
- Freight Management
- Inventory Levels
- Real Time Purchase Order and Package Tracking
- Storage Location

Joint Venture Opportunities

SCS is open to investigating equity or co-operative joint venture relationships with its international partners. Our primary focus is on supply chain and logistics services thereby allowing us to manage the day to day operations on your behalf.

SCS can provide the following JV services

- Finance Purchase of Materials
- Manage Materials Inventory Control
- Manage Finished Goods Inventory
- Manage Logistics and Warehouse Activities
- Finance Receivables for both Local and Export Sales
- Negotiate Letters of Credit
- Other Services as Required
